- Skill Highlights
- Project management
- Strong decision maker
- Complex problem solver
- Creative design
- Innovative
- Service-focused

Languages

- French: Native
- English: Intermediate
- Spanish: Expert

Experience

Frontend Developer

2023 - Present

Freelance - Mexico City

- Designed and developed new views/components for system modules, enhancing user experience.
- Ensured optimal performance by maintaining and updating existing views/components.
- Applied best practices in Frontend development to achieve high-quality code and efficient UI.
- Infused innovative design principles to elevate aesthetics and usability.
- Utilized HTML, CSS, JavaScript, and JQuery for effective project implementation.

3D Modeler and Draftsman

July 2019 – Present day

ARQO - Mexico City

- Analyzed architectural plans, translating them into structural models using Autocad.
- Utilized Staad Pro for model analysis, ensuring structural integrity.
- Developed and interpreted blueprints, diagrams, and technical specifications.
- Managed project documentation to meet quality and timeline requirements.

Education

- **Bachelor of Science in Civil Engineering, September 2019**
Technological Institute of Tehuacán - Tehuacán, Puebla
- **Master's in Coding: Web Page Development**
DEV.F - Mexico City

Attribute

- Strong teamwork and collaboration skills fostered through diverse professional experiences.
- Demonstrated responsibility, efficiency, and personnel coordination.
- Proficient in innovative design techniques aligned with Front End technology trends.
- Effective communication and assertiveness in conveying ideas and requirements.
- Blueprint development, ensuring precise project execution.
- Diligent site inspection and decision-making skills.
